

Countrystyle Managing resources in Kent and beyond

Overview

Countrystyle Recycling delivers a broad range of specialist, cost-effective waste and resource management services for both private and public sector clients across Kent, the south east, London, and further afield. Based locally in Kent, Countrystyle operates a network of facilities strategically positioned to provide customers with innovative and reliable resource management solutions.

Aim

Countrystyle's aim is to provide tailored resource management services that exceed customer expectations, drive innovation and set the market standard for sustainable quality end products. The company has a long track record of spotting opportunities, understanding the ever changing waste market and developing solutions to meet customer needs.

end products such as compost and wood chip fuel. Their pioneering plasterboard recycling service ensures construction materials can be recycled and their screening and shredding services provide high grade recycled gypsum for use in plasterboard manufacture.

We have worked with Countrystyle for a number of years and would like to take this opportunity to express our thanks for the service your company has given to us. With your help, our approach to waste management has changed. I would have no problem recommending Countrystyle to other businesses.

Colin Peters
Group Purchasing Officer, Aliaxis UK
(Countrystyle work with DHM Plastics, Maidstone a subsidiary of Aliaxis UK)

Quality

The Countrystyle brand is founded on quality, flexibility and reliability. Whether providing professional collection services from offices, factories, farms, retail and leisure outlets, or processing material streams sourced from Local Authorities to produce high grade quality products, the skills and professional expertise of the Countrystyle team ensures the highest levels of customer satisfaction are delivered.
